PROFILE

Trained as a full-stack developer, I have crafted a niche as a dedicated frontend web developer. I have completed three impactful projects using technologies like React.js, CSS, integrating APIs and collaborating through Git. I have 8 months of experience and 5 months of training at GoMyCode here [🔗](#), one of the topmost bootcamp in Nigeria. My background in mass communication enhances my strong communication skills. Proficient in backend technologies like Node.js and MongoDB, I offer a holistic understanding of web development. Eager to learn, I'm working on mastering Redux and expanding into React Native for app development to enhance my frontend skills. I'm Seeking a frontend internship to continue my growth.

PROFESSIONAL EXPERIENCE

On-Site Full Stack JavaScript Trainee

GoMyCode Nigeria

11/2022 – 05/2023

Yaba, Lagos, Nigeria

- Learned how to use the latest front-end technologies, JavaScript, React.js, CSS, Tailwind, Bootstrap, HTML to build interactive and beautiful front-end interfaces
- Built and managed the server side using the latest backend technologies, Node.js, Express.js. Used MongoDB and Cloudinary to collect and store data
- Worked with Git version control system and Github to collaborate with other developers to build scalable crud applications.
- Learnt and built MERN stack applications using the best code practices.
