PROFILE

Having trained as a full-stack developer, I have refined my software expertise, demonstrated through my successfully completed three impactful projects, utilizing React.js, Redux, Node.js, Express and API integration. My pursuit of mastery in Next.js and Typescript reflects my eagerness for knowledge and dedication to enhancing my software skills.

PROFESSIONAL EXPERIENCE

On-Site Full Stack JavaScript Trainee

GoMyCode Nigeria

11/2022 – 05/2023
Yaba, Lagos, Nigeria

- Worked with the latest front-end technologies, JavaScript, React.js, CSS, Tailwind, Redux and HTML to build interactive and beautiful front-end interfaces
- Built and managed the server side using the latest backend technologies, Node.js, Express.js. Used MongoDB and Cloudinary to collect and store data
- Worked with Git and Github to collaborate with other developers to build scalable crud applications.
- Built MERN stack applications using the best code practices.
